learning by thinking

Our programmes constitute a continuous sequence of multidisciplinary experiences generating research and projects in the artistic and professional contexts of current trends.

learning by doing

Ideas become projects, strategies, techniques and technologies, turning into prototypes and in some cases developing into products for the companies we work with.

teaching by learning

Learning by doing is also teaching by learning and this has changed the relationship between lecturers and students: classes and groups have transformed into work teams that liaise continuously with companies and research institutes. Experience forms the methodological skeleton through which innovation insinuates itself and guides us in planning the future together.

*Italo Rota,
NABA Scientific Advisor from 2013 to 2024*

NABA is the Best Italian Academy of Fine Arts in the top 100 worldwide in Art & Design field in the QS World University Rankings® by Subject.

NABA is the largest Academy of Fine Arts in Italy. Founded in Milan in 1980 and legally recognised by the Italian Ministry of University and Research in 1981, it is characterised by an interdisciplinary methodology with a strong inclination towards research, experimentation, and innovation on the most current issues, including new technologies, Artificial Intelligence and sustainability, and a dynamic interaction with the professional context. LABORATORIES

With over 50 specialised labs, NABA is a laboratory-based Academy: supported by professional and innovative environments, methods and tools, students, faculty and qualified staff cooperate to realise complex

cross-disciplinary projects, integrating research and circular design principles to reduce resource consumption and meet contemporary and future instances with new educational and production models.

ZEROWASTE CULTURE IN THE DESIGN LABS

3D PLA Printing / Clay 3D Printing / Laser Cutting / CNC Milling machine / Thermoforming / Turnery / Carpentry / Biomaterials

Here, the design of models and prototypes is carried out with state-of-the-art tools and skilful artisanal dexterity. Research, innovation and sustainable design practice create room for innovative upcycling, an essential part of the present and future industry.

INNOVATION AND SUSTAINABILITY IN THE FASHION AND TEXTILE DESIGN LABS

Natural dyeing / Printing and silk screen printing / Eco printing / Modelling with Lectra / Knitwear with Shima Seiki / Textile heat-welding with Framis / Water Recycling System

With professional machines and constant research on materials and techniques, these labs provide full-scale knowledge of the production chain, for an increasingly sustainable approach to the fashion system.

CUTTING-EDGE ENVIRONMENTS IN THE MEDIA DESIGN AND NEW TECHNOLOGIES LABS

Virtual Studio / Fortnite / Toon Boom / Unreal Engine / GitHub Campus / Human-computer interaction / Generative Visual and Sound design / Performing Arts

From set and cinematographic technologies to game development and VFX, these labs are avant-garde in the design of immersive contents in the fields of media, creative technologies, metaverse and its related applications.

EXPERIMENTATION AND ARTISTIC REPRESENTATION IN THE VISUAL ARTS LABS

Engraving / Chalcography / Painting / Sculpture and art installations / Drawing / Photography / Video applications and new media / Display

The teaching of experimental artistic practices and techniques in the labs focuses on the research of personal and new languages, which adds curatorship, art critique, editorial direction and museum management to the art profession.

CAMPUS LIFE

student life

Every year a dedicated office proposes to the students extra-curricular activities such as guided tours, events, sports as well as cultural, commercial and health benefits. Furthermore, thanks to the Buddy Project, additional support to international students is provided.

NABASHOPPING.COM is the online shop for Made in NABA products: a collection of clothing and accessories for study, work and leisure time.

library

On the two campus, consultation and borrowing services are available for numerous printed and digital volumes, these archives and sector-related magazines, as well as access to some of the most prestigious online databases (BoF, JSTOR, WGSN, Vogue Archive). In Milan, a peculiar display of samples of innovative materials and papers is also open to the users.

housing

The Housing office supports the students, throughout the whole booking process, in finding accommodation in shared apartments or independent studios thanks to different solutions located nearby the campus.
