

NABA / HDK-VALAND PHD SELECTION RESULTS

The following is the ranking resulting from three phases of selection of all the applications received. A summary of the process is described here, evaluation criteria can be found at the end of the document.

- 1) **Compliance:** this phase implied the checking of all the material submitted to establish whether it could actually be evaluated. Applications with missing or wrong documents, or that used a wrong application form, or that were technically incomplete or inappropriate were judged not suitable for evaluation and labelled “NSE”. Complete and correct applications were labelled “OK”.
- 2) **Application:** during this phase an independent selection committee evaluated the applications according to the specified criteria and graded each component of the material submitted. After a collective consultation process, the committee produced a provisional ranking. Candidates who reached a grade above 80 points passed to the interview.
- 3) **Interview:** shortlisted candidates were interviewed by a different commission, and an additional grade was added to the original grade according to the outcome of the interview. The interview phase mainly serves to evaluate the interest of the project/candidate to NABA’s research interests and academic practice.

The first two candidates in the ranking will be offered a place in our PhD program. Should they decline the offer, we will proceed offering the place to the next candidate in the ranking,

NABA Employees who applied to the program were evaluated separately and their outcome is available in a separate list.

NABA HDK-Valand PhD Selection Final Ranking

NU2425017	n/a	admitted under professional development plan
NU2425062	n/a	admitted under professional development plan

NABA / HDK-VALAND PHD SELECTION CRITERIA SUMMARY

Compliance

- All documents correct and in pdf
- NABA Research Proposal Form is used
- English certification (official diploma, English award or exam appointment)
- Requisites fulfilment
 - BA + MA or self-certification of completion of MA within 31/7/2024

Application

Quality of the research project [up to 40 points]

- The proposal should be clearly written and well-organized, with a logical flow of ideas. It should clearly state the research problem, objectives, and hypotheses (if applicable). The proposal should also provide a clear rationale for why the research is important and how it fits into the existing body of knowledge. [10 points]
- Relevance and originality of the proposed project, based on the state of the art in the specific disciplinary area [up to 10 points].
- Proposed methodology, focus and coherence of the project, feasibility, and project implementation. [up to 10 points]
- Increase in knowledge in the specific field and possibly in other sectors, about the national and international artistic research system [up to 10 points].

Applicant's previous research experience [up to 15 points]

- Quality of scientific publications, monographs, books, other publications and presentations etc. [up to 5 points]
- Artistic research and artistic activity at national and/or international level suitable for attesting the quality of the candidate's scientific research. [up to 5 points]
- Previous acquisition of research funding on a competitive basis as artist and related funding received. [up to 5 points]

Potential impact of the project within NABA academic vision [up to 30 points]

- Impact of the project in the advancement of knowledge on issues of fundamental relevance, the influence on artistic innovation, advancement of methods both within a single discipline and in trans- or interdisciplinary form. Adherence to NABA's academic policy and disciplinary areas. [up to 10 points]
- Impact of the project on facing social and political issues, protecting cultural heritage or the environment, disseminating knowledge in society in the broadest sense, as well as in art and culture, and even more generally, in common awareness of the contemporary scenario. [up to 10 points]
- Impact on multitude of perspectives considering diverse backgrounds, interdisciplinary approaches, global experiences, underrepresented voices, unique life paths, and a commitment to inclusivity. Emphasizing diversity fosters an inclusive academic environment, encourages innovation, and addresses complex issues from varied angles. [up to 10 points]

Curriculum Vitae [up to 10 points]

The ideal candidate is an artist, recently graduated and at the beginning of their career, but with an interesting a relevant experience and an already ongoing practice, even if very recent/brief.

Extremely fitting [10 points]; Fitting [8 points] Partly fitting [5 points] Non fitting [0 points]

Recommendation Letters [up to 5 points]

We look for evidence of self-organisation, high potential, high initiative and drive, relevant artistic experience or activity, high integration in academic and artistic community

Extremely fitting [5 points] Fitting [4-3points] Partly fitting [2-1 points] Non fitting [0 points]
